Woods & co., BANKERS.

As the volume of our business has so materially increased during the past year, as is evidenced by the large number of new accounts that have been opened with us, both large and small.

We desire to say a few words to you regarding your banking business and your bank account.

Our many friends have brought a large number of depositors to us and we owe to a large extent our rapid growth to that personal interest they have taken in our prosperity.

ACCOUNTS.—We sold:it the accounts of small depositors, and it is never too much trouble to us to extend them the same facilities we do to our large accounts. We want your accounts, we want your business, and we will endeavor by prompt, courte-

The adjutant general has written a letter to the presidents of military colleges saying:

It is not to be supposed that the second communication will be as temperate as the first. The general opinion in official circles is that a "demonstration of force" will be made at once, and the hope is expressed that when Chile sees that the United States is in earnest and has the force to back up the demands of the State Department she will retire from her defiant position and be willing to treat the matter in a more satisfactory manner.

It is understood that instructions have been given to all the available vessels to hold themselves in readiness for sailing orders. The best naval authorities assert that our naval force is strong enough to impress Chile with a sense of the danger that lies in the maintenance of her defiant attitude. We are, according to the opinion of naval officers, embarrassed by one disadvantage, however, the knowledge of which may encourage the junta to further folly. It is that we have no convenient coaling stations accessible.

NEED OF COALING STATIONS.
A naval officer who is qualified to speak on the subject said today:

"We have before us a demonstration of the wisdom of Washington's maxim—In time of peace prepare for war." Some of those whoare now urging vigorous and warlike demonstrations are men whose care it should have been to prepare us for such an emergency. The Navy Department has been done and we are now without means of coaling our war vessels in those waters. We have neither coaling from a political meeting attained a political meeting attained and only only the police of Dublim, who have carefully into the kild. Mr. John Dillon. the Chileans could cut off our coal supplies we would soon be in a bad condition. Moreover, it would be necessary for our vessels to sail back to San Franc.sco to have their bottoms cleaned. The only thing to do would be to capture a port and establish a coaling station."

This government will remain firm.

Senator Edmunds called on the Secretary of the Navy this morning. In response to an inquiry by a Stan reporter, he said that he had inquiry by a Stan reporter, he said that he had sufficiently conversant with the case to express an opinion as to the present situation. He said, however, that he was sure that this government would be firm and just and would do the right thing in the right way. He hoped the Chileans would be reasonable enough and sensible enough to act properly.

THE CASE LOOKS UGLE.

A Star reporter saw Senator Cullom this morning after he had had an interview with Secretary Tracy. Speaking of the Chilean affair the Senator said:

"The Stuation looks very ugly. Those little chaps down there are very 'sassy,' and I think we shall be obliged to give them a lesson. If they do not change their tactics at once the only thing for us is to send our war ships down there and give them—the mischief."

At the Chilean situation was discussed at the cabinet meeting today, and it is understood that Mr. Blaine laid before the President and the other members of the cabinet, all of whom, we wantly provided that Mr. Blaine laid before the President and the other members of the cabinet, all of whom, we wantly the cabinet, all of whom, we wantly the cabinet, all of whom, we wantly the cabinet where are which is understood that Mr. Blaine laid before the President and the cabinet where which is understood that Mr. Blaine laid before the President and the cabinet, all of whom, we wantly the cabinet, all of whom, we wantly the cabinet, all of whom, we call the cabinet, all of whom, we call the cabinet where which is officed and which it would have been his term. The official sadded, with a significant shrug, that Vi

tional and untrustworthy dispatches supplies the English papers with telegrams from New York announcing that the greatest excitement prevails in America owing to a report that Mr. Harrison's cabinet had decided to declare war against Chile.

The Times today publishes a letter signed

The Times today publishes a letter signed "An American," who asserts that the attitude of the United States in regard to Chile is entirely due to the approaching elections in several American states.

The evening newspapers comment at length upon the strained relations existing between the United States and Chile.

According to the Pall Mail Garette there is no doubt that much of the excitement is due to the elections. Nobody, says the Gazette, seriously believes that President Harrison will push matters to extremities. Neither the sympathies of other countries nor the majority of Americans.

ter."

"It is even more incredible," the Globe continues, "that Chile should court irretrievable disaster. A weak government will always find plenty of reason for yielding to a strong government without loss of dignity.

"But there remains the question, whether, if President Harrison's government pushes the quarrel into an actual declaration of war, it may not find itself taken at its word in a way both unexpected and undesired."
